Four Aunties and a Wedding
by Jesse Q. Sutanto
(Berkley)

"The Chan family is back! Meddy Chan is getting married, and the wedding planners are perfect—until Meddy overhears the wedding photographer talking about murdering someone at the reception. Her aunties spring into action, setting into motion a series of madcap misadventures intended to save Meddy's special day. A charming combo of close-knit family, humor, and light mystery; great for fans of Mia P. Manansala and Jade Chang."

—Nanette Donohue, Champaign Public Library, Champaign, IL
NoveList read-alike: *Vanessa Yu's Magical Paris Tea Shop* by Roselle Lim

Continuous Review, Evaluation, and Weeding

Keep an Eye on Your Collection!

- Targeted walkthroughs – focus on areas that are overcrowded, sparse, and unappealing
- Grubby items – identified by staff or high circ reports
- Item circulation by collection – look at trends in usage

Mass-Market Paperback Fiction

Last weeded: May/June 2021, 0 circ 2 years

FY19 relative use: 0.71

FY20 relative use: 0.71

FY21 relative use: 0.56

This collection consists of mass-market copies of popular fiction titles (including Westerns). Mass market originals are unusual in general fiction. In most cases, prefer hardcover or trade paperback editions of books when available. Purchase mass market when it is the only option to replace a popular title, or as an inexpensive way to supplement holdings for popular authors (e.g., Grisham, King).

Urban fiction and literary classics should be purchased in hardcover or trade paperback. They do not circulate well in mass market format.

When weeding, follow general series guidelines.

Relative use: ratio of the percentage of the overall collection to the percentage of overall circulation. Should be close to 1 in an ideal situation. Excel and Google Sheets spreadsheets that will calculate this for you are included in the resources!

Create a Maintenance & Weeding Plan

- Take the information you collected in your walkthroughs and statistical analysis and apply it to a real-life project
- Start small if needed, focus on “low-hanging fruit” (poor condition, outdated, low circ)
- Weed no more than 5% of a collection (if weeding hasn’t been done in a long time) or 10% of a collection (if you weed regularly)

DVDs:

Collection	Collection Size – FY18	Collection Size – FY22	Percent Change	Circulation – FY18	Circulation – FY21	Percent Change
Adult DVDs	27,758	23,664	-14.7%	374,604	250,709	-33%
Children’s DVDs	9567	8163	-14.7%	119,439	70,136	-41.2%

- With moderate weeding (no circ for 18 months):
 - Adult DVDs: 22,737 items (927 items weeded)
 - Children’s DVDs: 7400 items (763 items weeded)
- With aggressive weeding (no circ for 1 year):
 - Adult DVDs: 21,292 items (2372 items weeded)
 - Children’s DVDs: 6823 items (1340 items weeded)

My suggestion: Reduce collection size to approximately 27,000 items by weeding aggressively in several waves over the next six months, focusing on low circ and minimal circ, as well as reducing surplus copies. Children’s will also need to weed heavily. Placing items in storage should not be a substitute for weeding—we should be moving DVDs out of storage as much as possible.

Basic Weeding Stats: Dead Items

Start with a collection count:

- Item record search
- Count only
- Choose your collection
- Add limits to remove items you don't want to count (withdrawn, lost, etc.)

Then run your weeding pull report based on your desired criteria (e.g., 0 circ for 3 years)

Basic Weeding Stats: Turnover & Relative Use

Turnover: If all items in the collection were checked out an equal number of times

Relative use: Ratio of the percentage of the collection to the percentage of use (ideal: between 0.9 and 1.1)

Less than 0.9: more items than you need, reduce collection size

Greater than 1.1: fewer items than you need, expand collection size

(Pro tip: make Excel do this work for you)

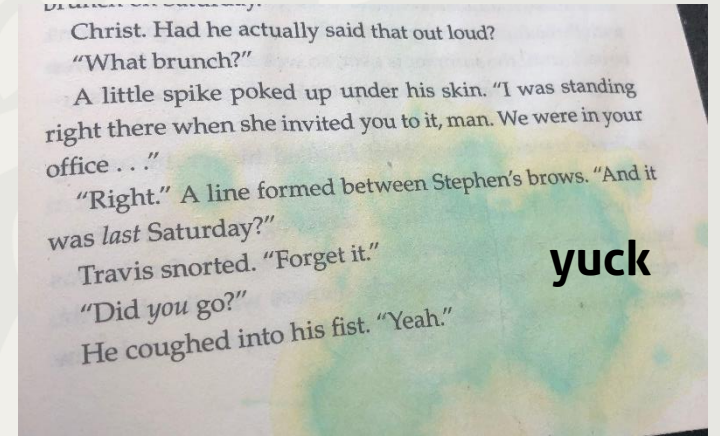

Hot Topic: It's a Mess, Where Do I Start?

Every collection has “low-hanging fruit”:

- Outdated/irrelevant items (travel, tech, legal, science, medical, politics)
- Items in poor condition
- Low circulation

What can you afford to replace? What do you need to replace?

Shift as you weed—avoid empty shelves!

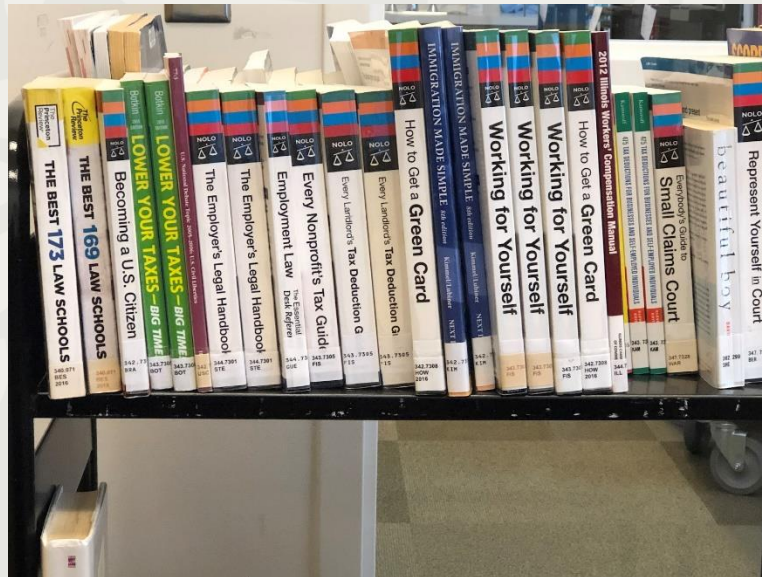

Tips for Timeliness

Only collect what you can update!

- Travel: choose popular destinations for your community—no need to collect every possible travel guide
- Technology: for small collections, focus on the basics. What do your patrons ask about? Books may not be the best choice since they are outdated by the time they hit your shelves.
- Legal: focus on basic needs that you're seeing in your community

Remember that SHARE can provide what you don't have! (We're happy to provide materials via OCLC interlibrary loan as well)

Hot Topic: Weeding & Maintaining Series

It's a local decision based on local needs. (I know, not helpful)

Here's what we do:

- Maintain series as often as possible
- For series that have ended:
 - If more than $\frac{1}{2}$ of the series has not circulated in 3+ years, weed the full series
- For series that are continuing:
 - If more than $\frac{3}{4}$ of the series has not circulated in 3+ years, keep the most recent only and check circulation stats before purchasing new additions

We've started adding series numbering to spine labels/series information in Polaris—this makes it much easier to check for gaps!
